

BCASCA Building Committee Report

One of the goals of BCASCA is to have its own community development center by 2018. This center will be home for the various activities carried out by our organization. It will include facilities for: homework assistance for kids, youth activities, community meeting rooms, cultural, development, and other educational and business activities.

We have established a Building Committee which has the mandate to identify suitable land or building for use, and to engage in raising funds.

Currently discussions are taking place in regard to obtaining a piece of land on which to locate the facility. A Gofundme site, BCASCA Building Fund, has also been established as one of the avenues through which we are seeking donations. Donations in kind or services are also being sought.

We are seeking your support in this effort as we continue to serve our members and the community at large. Interested persons may contact us at 321-557-2968 or donate to our Gofundme account.

Paul Edwards
Committee Chairman
